THE EAGLE GROUP ADVANTAGE, LLC

PROGRAM MANAGEMENT · MISSION SUPPORT · AI & DIGITAL PLATFORMS

CAPABILITY STATEMENT · NOVEMBER 25, 2026

TEGADV provides owner-led program management, mission operations coordination, process improvement, technical transition support and AI platform development. We turn complex requirements into organized workflows, practical technology and clear delivery plans.

CORE CAPABILITIES

Regional & Multi-Site Program Management
Coordinate priorities, schedules, resources, deliverables and performance reporting across dispersed operations.

Mission Operations Coordination
Connect operational and technical workstreams through stakeholder coordination, reporting, escalation and corrective-action tracking.

Process Improvement & Program Controls
Document workflows, develop procedures, maintain risk registers and schedules, and make progress visible through practical reporting.

Technical Transition & RMF Support
Coordinate migration planning, documentation, approvals and stakeholder actions supporting technical transitions and authorization activities.

AI/ML & Platform Development
Build AI-enabled platforms, applications and workflow automation; integrate appropriate models and services; evaluate prototypes against defined operational requirements.

LEADERSHIP

Joseph Aguilar · Chief Executive Officer
U.S. Navy veteran leading strategy, customer engagement and delivery planning. His career includes leading more than 250 employees across 12 U.S. and overseas sites, with experience in aviation operations, IT and cybersecurity coordination, maintenance, communications and range support.

Pilar Aguilar · Chief Operating Officer
Supports administrative activities, scheduling and business coordination. She supports organized delivery through administrative coordination and practical business support.

ENGAGEMENT APPROACH

Define the requirement. Organize responsibilities and delivery plans. Coordinate execution. Evaluate results and improve. Each engagement is scoped around customer requirements and the actual delivery team.
